

Questions from the panel – Please read the sub-questions on pages between 12 and 15 of 'The Guide for Individuals'. Make sure your answers will not be longer than 3,000 words.

1) Your experiences of living in immigration detention, including the context and duration of your stay; I have ~~been~~ been in three detention's Colnbrook, Camsfield and Yarl's Wood they all are different I would say Coln Brook was worse stuff is also rude on the other hand Camsfield was way much better staff is very good down there. Yarl's Wood is ok but healthcare is nightmare they never do good they lie about things don't give medicine.

2) The conditions in immigration detention, including your ability to access services such as legal advice, healthcare, pastoral support; Again Colnbrook is very bad ~~they~~ they broke my phone never get back to me and always hang up when I ring they lock us water come in rooms nobody do nothing they don't respect no privacy and make us look bad when someone complain Camsfield is very good they give you respect help you with whatever they can. Yarl's Wood ~~has~~ healthcare is very bad for everyone but for other things it's good for female's rather than male facility wise.

3) Whether there were appropriate mechanisms to deal with any mental, physical or emotional issues you may have experienced prior to or during your time in detention; My mum has medical issues and as I said Yarl's Wood healthcare is very bad and that cause people losing ~~the~~ their mind being here and not getting what you need cause more and more problems specially mental and emotional issues and many people go through this specially in places like Colnbrook where staff do nothing.

4) Any longer-term impacts of detention on you, your family and/or your wider community;

My mum has medical condition and her being here or anyone like her she very emotional and even a small thing and her blood pressure shoot up people like my mum shouldn't be in that sort of places if home office doesn't believe us that not our fault they reject everything we give within no time ~~they~~ they can't make someone's life decision like this she was never going to runaway but they still brought her here.

5) Any other information about detention that you would like to share.

health ~~and~~ privacy and respect should be
fair which is not specially in colubrook
where staff is unbelievable.

6) How far does the current detention system support the needs of vulnerable detainees, including pregnant women, detainees with a disability and young adults?

As much as I know health ~~is~~ ~~is~~ ^{system}
is very bad I'm young adult. I'm
watch my mum that way and not able to do
anything does hurt me my experience in colubrook
where they don't respect was shocking young
people like me when get treated like this they
~~take~~ take it and think about it all the time and ~~not~~
able to do anything is worse feeling that I can't describe.

7) There is currently no time limit on immigration detention – in your view what are the impacts, (if any) of this?

People who are fit without any health condition
and who are mentally strong they may can
survive here but anyone who have medical
condition shouldn't be here for long.

8) Are the current arrangements for authorizing detention appropriate?

9) What are the wider consequences of the current immigration detention system, including any financial and/or social implications?

10) How effective are the current UK alternatives to detention (e.g. bail, reporting requirements)?
Are viable alternatives to immigration detention in operation in other countries?

I have never been to any other country
So I can't say how UK is better or bad. Person
who report regularly should get bail easy but no one
does

Please add any further comments below and then send off the form using the envelope provided

I have had a very shocking experience with
their officers have made very upsetting comments about my
sexuality and when I complaint they just rejected it
which was very upsetting
just didn't took it serious at all. They did wrong and they
to her and said she was very professional but she
wasn't. I have gave them everything to prove my sexuality
but they don't believe and
In detention they treat you very bad if you have
health issue to make them angry and then make
them look bad make bad records for the person
also speak for him/herself. We get very scared up
here because we don't know what going to
happen with us and people don't get medication
their health go worse and no one seem to
care.
